CHAPTER 1

What Kinsta is

Kinsta is managed WordPress hosting. Kinsta runs the servers, security and backups, so you can focus on your site.

You manage everything in MyKinsta, Kinsta's own dashboard, instead of cPanel.

Trial and refunds (official)	First month free on select plans for new customers. 30-day money-back guarantee for first-time customers only; it excludes overages, one-time fees and dedicated servers, and on free-month plans the 30 days start from renewal.
Migrations	Free and unlimited, done by Kinsta's team
Support (official)	Support is listed as 24/7 chat in 8 languages. Kinsta's Contact menu also lists phone, email and WhatsApp; we couldn't confirm whether phone covers technical support.
Uptime (official SLA)	99.9% standard guarantee. Up to 99.99% only if your order form says so. Credits of 5 to 20% (capped at one month) must be requested by chat within 30 days.
Review type	Research review. Not tested hands-on.

CHAPTER 2

Which plan to pick

Official prices in USD, excluding tax, **checked October 11, 2026**. The pricing page was running an A/B test, so you may see different plan names (Launch to Lead).

Plan	Sites	Visits or bandwidth	Monthly	Billed yearly
Single 35k / 20GB	1	35,000 or 20GB	\$35	\$30/mo
Single 65k / 40GB	1	65,000 or 40GB	\$50	\$42/mo
Single 125k / 65GB	1	125,000 or 65GB	\$90	\$75/mo
WP 2	2	70,000 or 40GB	\$70	\$59/mo
WP 5	5	125,000 or 65GB	\$115	\$96/mo
WP 10	10	315,000 or 125GB	\$225	\$188/mo

Bigger Single, WP and Agency plans are also listed. Enterprise starts from \$500/month with custom terms. Other variant: Launch \$35, Launch Plus \$59, Build \$69, Expand \$99, Scale \$169, Lead \$299 a month.

Pick in three steps

1. **Count your sites.** One site? Start with the entry plan.
2. **Check your traffic.** Pick visits-based or bandwidth-based billing, whichever fits your numbers.
3. **Start small.** Plan changes are prorated, and going over a limit doesn't take your site offline (overage fees apply).

CHAPTER 3

Getting-started checklist

1. Check the plan that's shown to you, and whether the first month is free on it.
2. Sign up and open MyKinsta.
3. Moving an existing site? Request a free migration from Kinsta's team.
4. New site? Use "Install WordPress" and choose the data center closest to your visitors.
5. Point your domain to Kinsta.
6. Make a staging site before big changes.
7. Check usage in MyKinsta. Kinsta emails you at 80% and 100% of your limits.
8. Remember the 30-day money-back window (first-time customers; on free-month plans it starts at renewal).

CHAPTER 4

Key features, explained simply

- **MyKinsta:** One dashboard for sites, domains, backups, caching and tools.
- **Staging:** A private copy of your site to test changes. Free with one click.
- **Backups:** Daily backups, kept 14 days or more depending on plan. Backups every 6 hours cost \$20 per site per month; hourly backups cost \$100 per site per month.
- **Security:** A managed firewall, Cloudflare DDoS protection and free malware removal.
- **CDN:** Delivers your files from servers around the world. Included in every plan.
- **Add-ons:** Extra disk space, more frequent backups, Redis and more, for an extra fee.

CHAPTER 5

Research-based rating

4.1_{/5}

Research review, not tested hands-on. Features 4.5 (50%), Ease of use 4.0 (25%), Pricing and value 3.5 (25%). Support is not rated, and its 20% weight was shared out across the other three.
